SUMMARY

Final-year B.Tech student specializing in Computer Science and Business System with hands-on experience in **MERN stack development and AI/ML systems**. Skilled in building scalable full-stack applications, RESTful APIs, and data-driven solutions using modern technologies. Seeking roles as a **Software Developer**.

EDUCATION

Techno India University

B.Tech in Computer Science and Business Systems (CSBS) | CGPA: 7.77

Kolkata, West Bengal

July 2022 – June 2026

RELEVANT COURSEWORK

- Data Structures
- OOPS
- Operating System
- Analysis Of Algorithms
- DBMS
- Computer Network
- SDLC
- Software Engineering
- Machine Learning
- Data Science
- Artificial Intelligence

TECHNICAL SKILLS

Programming Languages: Python, C++, JavaScript

Frontend Development: HTML, CSS, Tailwind, React.js

Backend Development: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL, PostgreSQL

Tools & Technologies: Git, GitHub, VS Code, Postman, AWS(Basic)

Professional Skills: Problem Solving, Analytical Thinking, Team Collaboration, Communication, Quick Learning

EXPERIENCE

Academic & Team Projects

Techno India University

May 2024 – Present

Kolkata, West Bengal

- Collaborated with team members on AI/ML and software development projects with focus on coordination, problem-solving, and timely delivery.
- Participated in project planning, debugging, testing, and implementation of intelligent automation systems.
- Demonstrated quick learning ability while working with new technologies including TensorFlow, IoT hardware, and backend frameworks.

PROJECTS

Task Manager – Full Stack Collaboration Platform | [Link](#)

May 2026

- Developed a full-stack team collaboration platform for project and task management with role-based authentication.
- Implemented project creation, member management, task assignment, task tracking, dashboard analytics, and responsive UI.
- Integrated JWT authentication, REST APIs, MongoDB database relationships, and interactive charts for productivity insights.
- Tech Stack: MongoDB, Express.js, React (Vite), Node.js, Zustand, Tailwind CSS, Recharts.

Eventify – Event Ticketing Platform | [Link](#)

January 2026

- Developed an event ticketing platform with role-based access for organizers and users.
- Implemented event creation, ticket booking, approval workflow, and QR-based PDF ticket generation.
- Tech Stack: MongoDB, Express.js, React (Vite), Node.js, Tailwind CSS.

Kasparro – Production-Grade ETL & Backend System | [Link](#)

December 2025

- Built backend services with API authentication and paginated endpoints.
- Designed relational database models and implemented data validation.
- Applied modular architecture principles and structured exception handling.
- Tech Stack: Python, FastAPI, PostgreSQL, Docker.

ACHIEVEMENTS

- Secured First Place in **IBM Expert Labs National Hackathon 2025**, a national-level competition, for presenting an innovative and impactful solution.
- Awarded a **gold medal** by the **Founder and Chancellor** of Techno India University for innovation and excellence.

CERTIFICATIONS

- Achieved **NPTEL** Elite certification in Python for Data Science with a score of 60%. - Certificate
- JavaScript Certification** – Demonstrated proficiency in JavaScript programming, DOM manipulation, and ES6+ features. - Certificate
- Certified in Generative AI Productivity Skills with Microsoft and LinkedIn – Developed skills in Generative AI tools and AI-powered workflows. - Certificate
- Introduction to Artificial Intelligence – Course Completion (Top skills: Artificial Intelligence, AI for Business). - Certificate
- Certificate of Completion in Java and C++. - Certificate
